Dear Parents / Carers

Welcome Back! We have had a busy and productive return since the half term holiday. Some parents have asked about next year's term dates. These are currently being finalised and will be published before the Christmas holidays.

Thank you to everyone who came to parents consultations this week. It is always good to have conversations with parents about their children. If you weren't able to make an appointment but would like to speak to the teacher then please contact them through eSchools (www.carclazesch.org) and they will try to make an alternative appointment.

We are already into November and it is getting dark very early, please can you think about whether your children are able to wear anything reflective on the way to and from school. Especially, if they are walking by themselves or have a club which finishes later.

Simon

Governor Vacancy

An opportunity has arisen for a School Governor.

Becoming a school governor is a rewarding role and will allow you the opportunity to use your skills and attributes to have a positive impact on the education of all of the children in our school. You will be able to develop and learn new skills, take on different challenges and work as part of an established and successful Governing Board.

Governors are keen to support and challenge the school leaders to ensure the continued forward-thinking approach to embrace challenges and change. Our Governing body is committed to continuous improvement and as such we are seeking Governors who would bolster our strong and committed team in challenging the school's performance to ensure continued rapid improvement for all our pupils.

If you are interested please come and speak to the office and we will arrange an appointment to speak to Mr Pollard about the role.

How important is it to understand money?

In the news this week

A study, conducted by the government and backed by the Money and Pensions Service, has estimated that around 5.4 million children in the UK do not have the money skills they will need in adulthood. Less than half of children and teenagers aged 7 to 17 have received a meaningful financial education, according to the results. It also found that a third of children recall learning about money in school and finding it useful, and nearly a quarter received key elements of financial education at home.

Things to talk about at home ...

- > What is your first memory of money?
- > Share your own experiences of money.
- > What do you think is the best way to learn about money and why?
