Numeracy	Lessons Based on Tests	Number – Addition and Subtraction	Measurement - Money		Multiplication and Division			
		IALT Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.	IALT Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value  IALT Solve problems in a practical context involving addition and subtraction of money of the same unit, including giving change.  Challenge based lesson	IALT Find different combinations of coins that equal the same amounts of money  IALT Solve problems in a practical context involving addition and subtraction of money of the same unit, including giving change.	IALT Recall and use multiplication and division facts for the 2, 5 and 10 times tables, including recognising odd and even numbers.  IALT Solve problems involving multiplication and division using materials, arrays, repeated addition, mental methods and multiplication and division facts, including problems in contexts.	IALT Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (x), division (÷) and equals (=) sign  IALT Solve problems involving multiplication and division using materials, arrays, repeated addition, mental methods and multiplication and division facts, including problems in contexts.	IALT Show that the multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot	Consolidation and End of Term Assessments
