Head Teacher: Mr Simon Pollard

Dear Parents/Carers

This week Brighter Smiles have visited Foundation Stage and Year 1 for fluoride treatments. They have also talked to Key Stage 2 children about how to look after their teeth. During the pandemic it became very difficult to get dentist appointments. Good habits start with children who would usually visit the dentist for a check-up every 6 months.

If you don't have a dentist you can search for one on <https://www.nhs.uk/service-search/find-a-dentist>

We have reached the time in the school year when we start thinking about transition to new classes. We hope to share which teachers each class will have in next week's newsletter.

Thank you for sending contributions to support the Friends of Carclaze, every donation is really appreciated.

Best wishes

Simon

Notices for Parents

- * During the summer months - please ensure you apply sunscreen to your children before they come to school. If they suffer with allergies - please give antihistamines before the school day starts (the office cannot currently keep on top of the demand for administering medication). Sun hats and plenty of water are essential at this time of year. Children can refill their drinks bottles as often as they need to.
- * Road Safety - we are getting more and more reports of children playing on the roads around Carclaze when walking home and climbing on walls around the school. Please ask your children to be careful and to consider the safety of not only themselves but those around them.
- * Absence Reporting - please let the School Office know either by text, phone or email on the morning of the first absence: secretary@carclazesch.org. Please do not email individual members of staff as they may not be in or may be on training and the message needs to get through to the office for registers before midday.

TAKEHOME

In the news this week

The technology company, Google, has recently announced changes to its search engine, including the introduction of the 'Monk Skin Tone Scale' to help make search results more inclusive by showing a wider range of skin tones. Professor Dr Ellis Monk (creator of the Monk Skin Tone Scale) and Google aim to tackle the unfair balance of skin tones people see when searching online.

Things to talk about at home ...

- > Can you think of a time when you didn't feel you were treated fairly or were fairly represented?
- > Can you think of an example of how to make others around you feel they have been treated fairly?
- > Do you think that seeing a wider range of people and skin tones when searching the internet will have a positive impact?
